

Pipeline Replacement Project

16" WOODBURY LINE REPLACEMENT PHASE 1 PROJECT

South Jersey Gas is improving our natural gas infrastructure that provides safe, reliable, affordable natural gas to 400,000 customers across southern New Jersey.

The upcoming work in your area will upgrade natural gas infrastructure and increase system reliability in Gloucester County. This important project will replace and improve an existing natural gas distribution main traveling through the Borough of Woodbury Heights and Deptford Township.

Traffic patterns in the area of construction will include lane shifts for east and west bound traffic. Please consider factoring additional time into your commute due to these temporary traffic patterns and potential delays. Residents along this project route will have access to and from their properties at all times.

For more information about the project route, project safety, traffic detours, and contact information, please visit:
southjerseygas.com/construction.

Thank you for your patience as our construction team works as efficiently and safely as possible to complete this project.

Municipality: Borough of Woodbury Heights and Deptford Township
County: Gloucester

Project Timeframe
July 2024 - August 2024

Streets Directly Affected
Tanyard Road (CR 663) (between Highland Road and Cattell Road)
Cattell Road (between Tanyard Road and Filbert Street)

Project Scope

- Road closures with detour will be in effect for the sections of road listed above during the following hours:
Monday - Friday: 7:00 a.m. to 5:00 p.m.
- Please plan accordingly and visit southjerseygas.com/construction for a map of the detour route and current work area.
- Our certified contractor will excavate and replace an existing distribution main in the public right-of-way.
- Your natural gas service will continue uninterrupted during the project.
